

UNMATH SCHOOL PRESENTS

MATH TALK 2.0

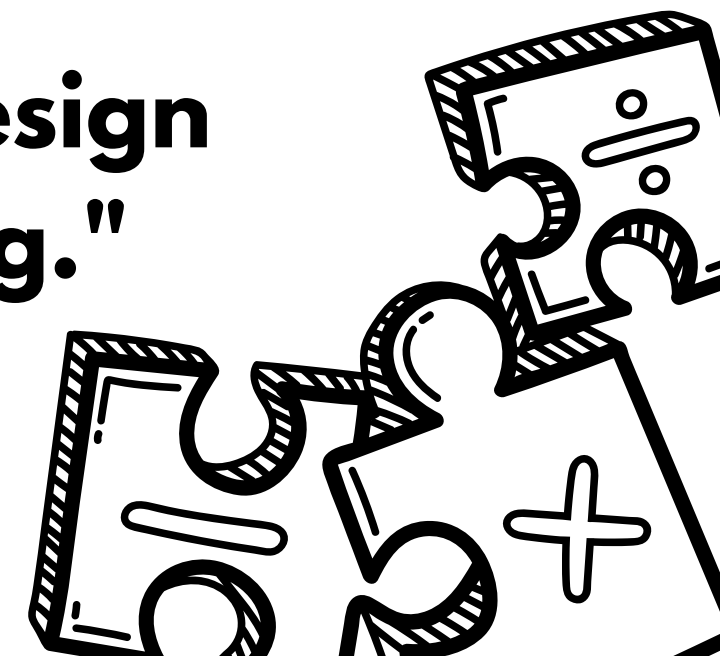

Our Speaker

Divesh Bathija

Co-Founder, UnMath School

A Math story teller, he has conducted several Math Talks in schools across the globe. The idea behind conducting such interactive sessions is to break the myth of Math - "It's not only about numbers and calculations, but in fact Math as a subject is a very important tool needed for Design Thinking and Problem solving."

About Us

UnMath School is a Mumbai based organization for innovative math teaching, that is reshaping the sphere of learning with creative mathematics to enable students and teachers to look at the subject beyond conventional textbooks.

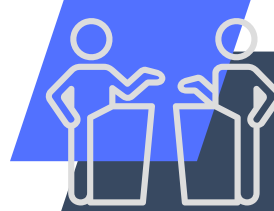

Table Of Content

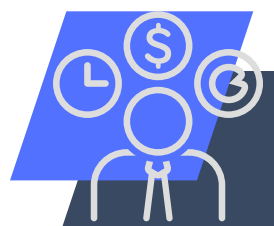

Interactive Session

Investigation activity

Math Debate (Grade 5 to 7)

Entrepreneurial Math (Grade 8 to 10)

Gamify Math (Grade 1 to 4)

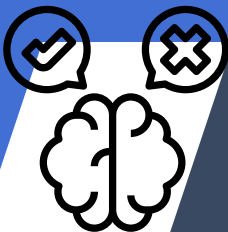

Learning in Math Talk 2.0

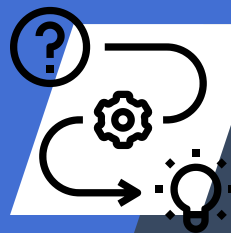

Math as a Design Thinking Tool

Through the Interactive Session and Entrepreneurial Math session student will learn how math plays an important role in town planning and new age technology.

Math as a Decision Making Tool

In the Investigation Activity students will work in peer groups to navigate math concepts and solve real life problems based on current affairs

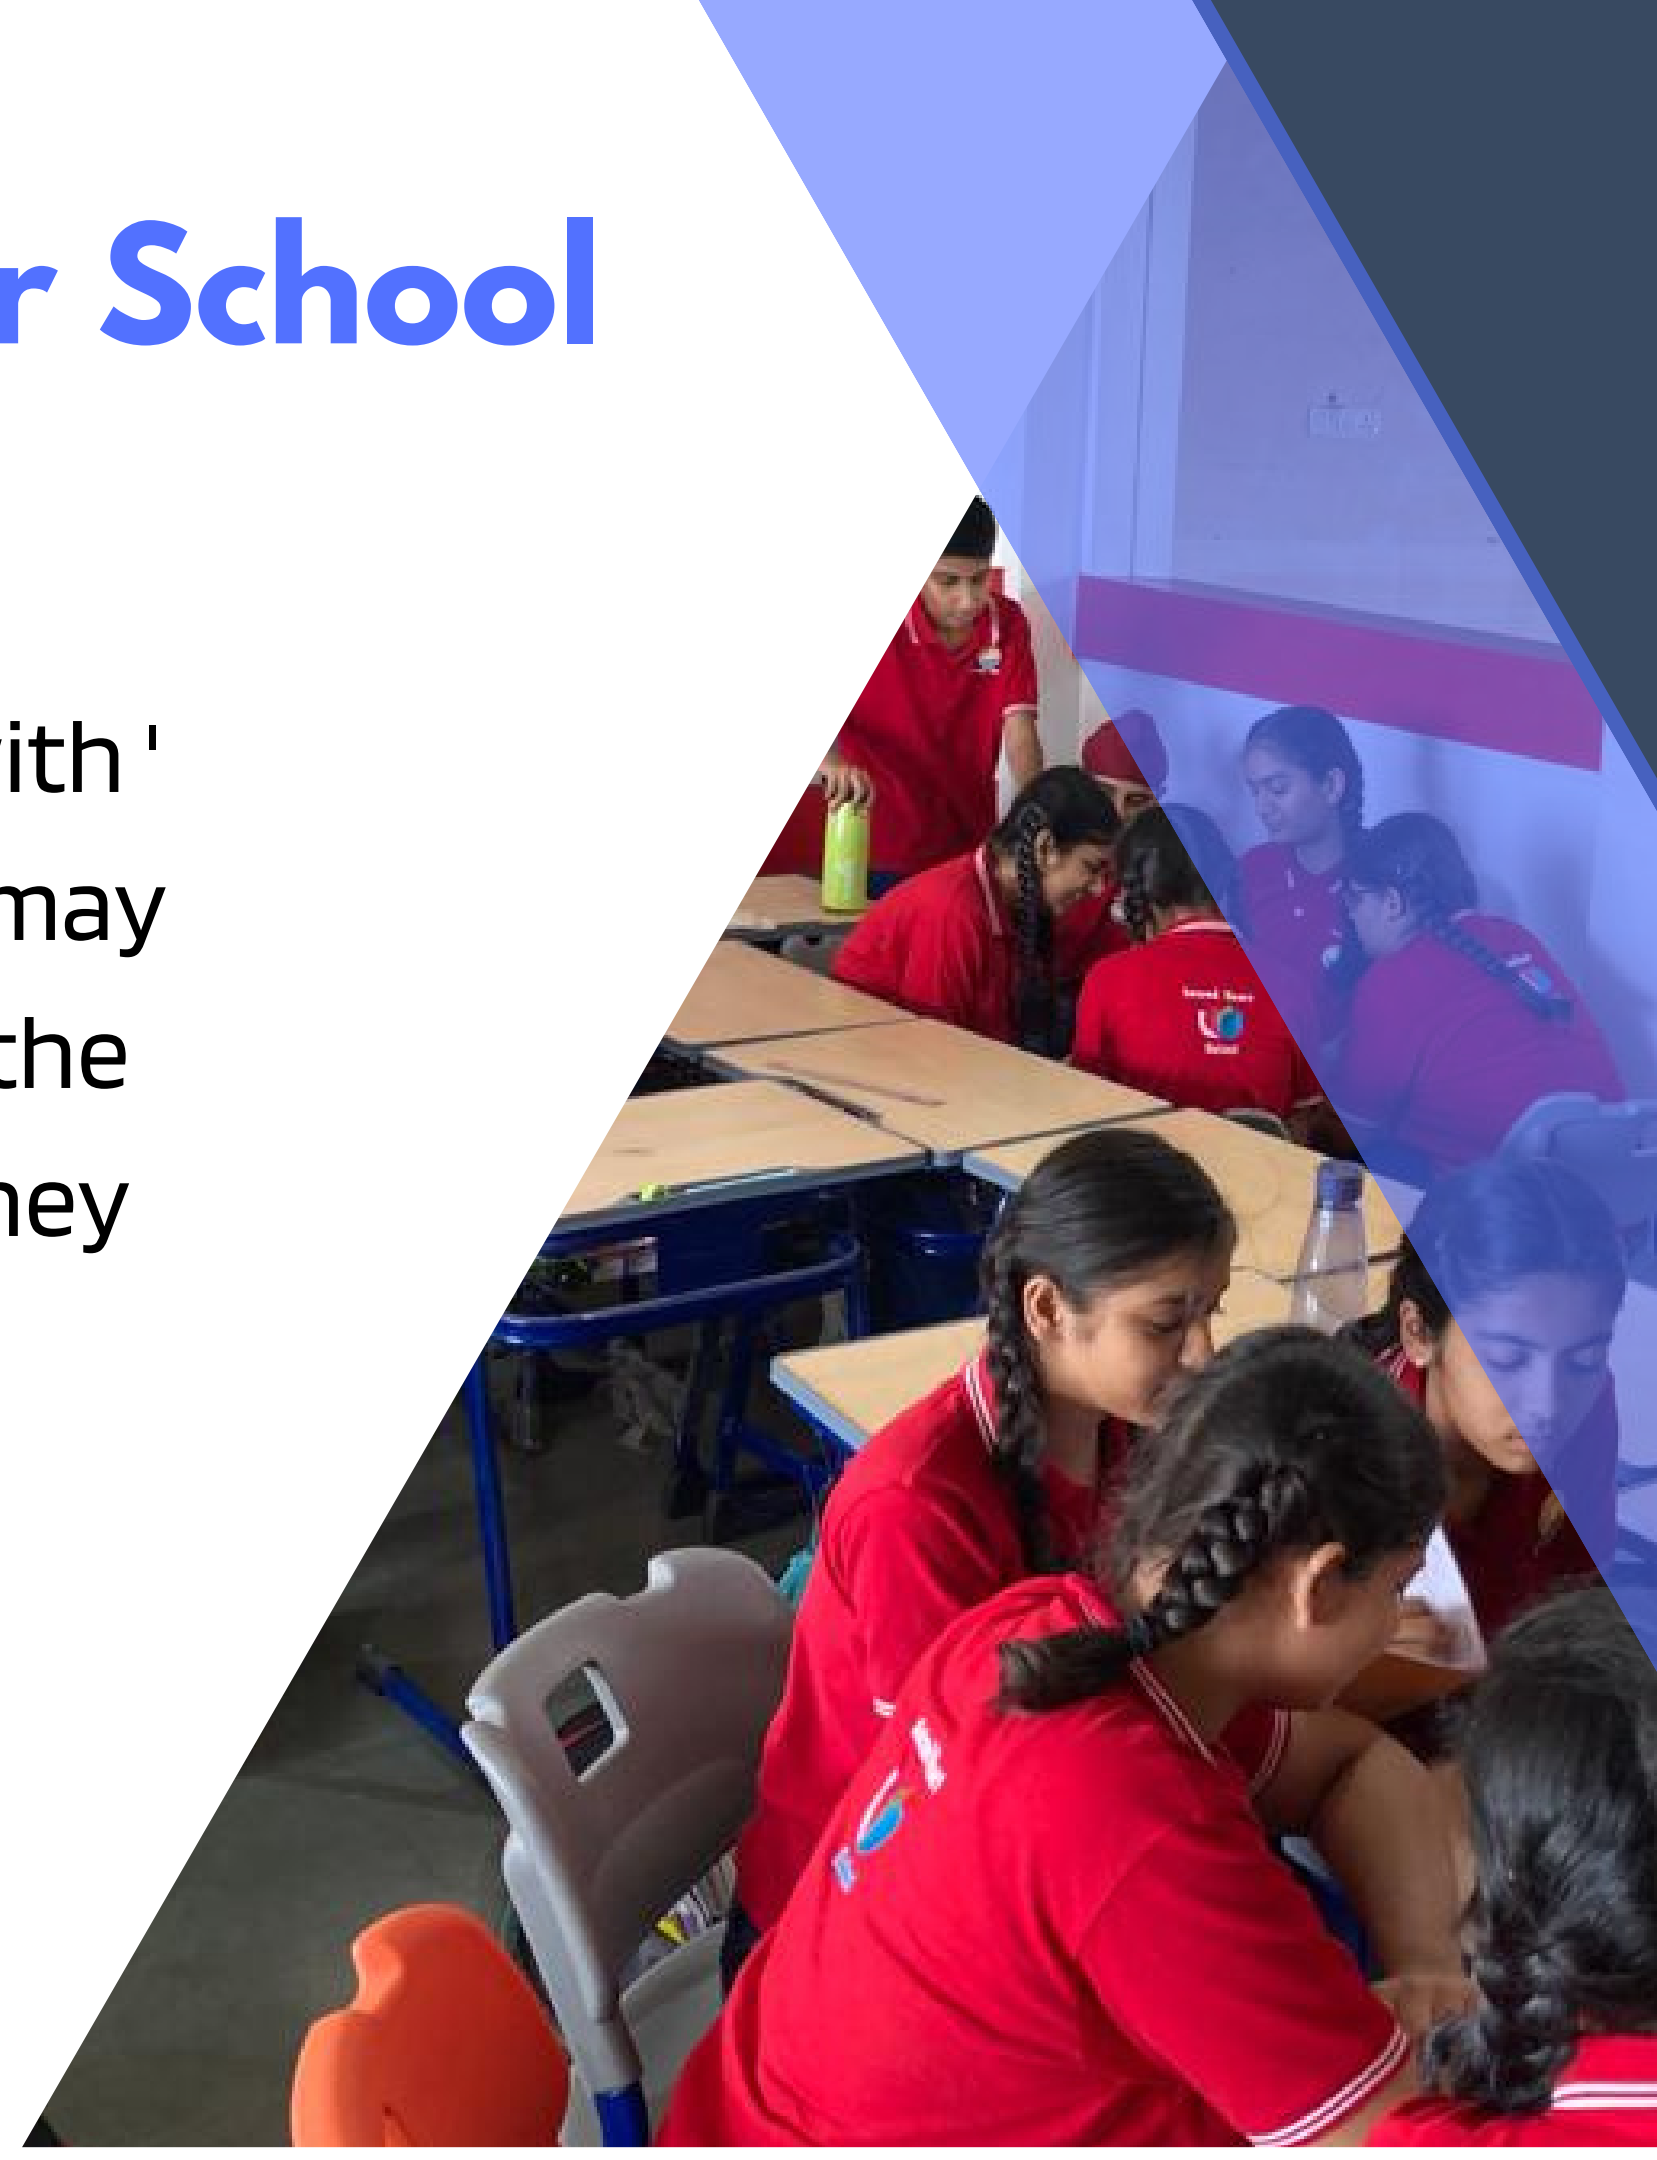

Math as a Problem Solving Tool

In the Math Debate students will share examples of how math has helped them in their day to day activities and its importance in our daily life

Craft a Math Talk for your School

Every school has a different curriculum and teaching pattern, and so we have come up with 'Craft your own Math Talk' where the school may choose which classes they want to conduct the Math Talk for and any particular topic that they want to cover

Please note that minimum 100 students should be there to conduct the session, each session is suggested to be of 2 to 3 hours and maximum 100 students per session.

Gifts and Prizes

Certificate

All participants will be getting participation certificates, selective students will be getting online Math Workshops worth Rs. 500 complimentary

Prizes

Winners will be awarded with certificate of excellence alongwith medals and online Math Workshops worth Rs.1000

School Recognition

The schools with minimum participation of 500 students will be recognized by Unmath School and can get offers on UnMath District Programmes.
